### PID Control With PID Compact - Siemens

The "PID\_Compact" Technology Object has the "tuning" Commissioning Functionality with which the P, I and D parameters can be calculated automatically depending on the controlled system. However, you can also specify the control parameters manually. The automatic tuning is divided into tuning types: 1. Pretuning and 2. Fine Tuning Jan 2th, 2024

### Advances In PID Control

Controllers utilize PID feedback. The importance of PID controllers has not decreased with the adoption of advanced control, because advanced controllers act by changing the setpoints of PID controllers in a lower regulatory layer. The performance of the system depends critically on the behavior of the PID controllers. 2016: Sun Li Jan 2th, 2024
